Johnston, RI 02919

Dear Mr. <sup>Dennis</sup>~~aRusso~~:

The purpose of this letter is to acknowledge the completion of Round 1A of the OU2 Remedial Investigation (OU2/RI) sampling and analytical activities. GZA conducted these activities at the Central Landfill site in Johnston, Rhode Island. The results of these activities have suggested that a Round 2 is necessary. Therefore, EPA approves RIRRC/GZA's recommendation for a Round 2 of sampling and analytical activities. Section 5.21 of the "Draft Risk Screening & Recommendation Report" for Round 1A OU2/RI outlines the Round 2 activities.

Please call me if you have any questions. You can reach me at (617)573-5779.

Sincerely,

John J. Courcier  
Remedial Project Manager
